Do knowledge-tracing simulators reward learning? A negative-control audit of reinforcement-learning exercise recommendation for programming

Authors. [Given name Family name][a,*], [Given name Family name][a], [...]

Affiliations.
[a][Department, Institution (full official name), street address, city, postal code, country]; [email address of each author]

Corresponding author. [*][Name], [full postal address], [email], [telephone]

Acknowledgements

[Individuals who helped with the research, language, writing or proofreading. Acknowledgements appear only on this title page.]

Declaration of competing interest

[The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.] [Authors: confirm, or declare the interests; also complete the journal's declarations tool.]

Funding

[This research did not receive any specific grant from funding agencies in the public, commercial, or not-for-profit sectors.] [Authors: confirm, or list funders with grant numbers.]

CRediT authorship contribution statement

[Name]: [Conceptualization, Methodology, Software, Validation, Formal analysis, Investigation, Data curation, Writing – original draft, Writing – review & editing, Visualization]. [Name]: [Supervision, Writing – review & editing]. [Assign only the roles each author actually performed.]

Declaration of generative AI and AI-assisted technologies

The same statement appears in the manuscript before the references and must describe the authors' actual use of AI tools; authors remain responsible for the entire content and may not list an AI tool as an author.
